

**Golden Retriever Club of America (GRCA)
Teaching Resources
To Encourage Responsible Dog Ownership and Care**

September 2005

Compiled by the GRCA Public Education Committee

September, 2005

Dear Teacher,

The Golden Retriever Club of America (GRCA) has endeavored to bring educational curriculums together which promote responsible dog ownership and dog care to students.

These curriculums are compiled from four different sources:

Janet Wall

American Kennel Club

Claire Caro (GRCA member)

Terry Combs (GRCA member)

Though we have arbitrarily divided sections into elementary, middle and high school, we encourage you to look beyond the age level you teach for materials that might be appropriate for advanced or challenged students in your classroom.

We have elected to send this material to you on a compact disc because of its volume (255 pages) and shipping cost. When you insert it in your computer's CD drive, a interface page should open within 45 seconds.

If it does not, click on your 'start' button; then your 'run' button; browse to your CD drive and choose the file named 'autorun.htm'.

If you continue to have difficulties with this CD, please contact the GRCA Technology Chair at Perry.Shipman@chezor.com.

If you would like to order a set of other hard copy educational materials from GRCA for each of your students, please contact Jolene Carey, GRCA Administrative Assistant, at careyjolen@aol.com. These include coloring books, posters, booklets and brochures.

We hope these offerings are helpful. If you develop or hear of other curriculums that address responsible dog ownership and care, the Public Education Committee would welcome reference to these for possible inclusion in this manual.

Linda Shipman, Chair
Public Education Committee
